

Healthy Lungs

Healthier You

Lung cancer often shows no symptoms at the start

That's why the NHS offers free Lung Cancer Screening for people **aged 55-74 who smoke or used to smoke, and feel well.***

You'll receive a letter inviting you for an appointment.

Look out for your letter.
A simple check today could protect your lungs for the future.

***For people registered with a GP in Barnet, Camden, Enfield, Haringey, or Islington**

These symptoms can be a sign of lung cancer

A cough lasting 3 weeks or more

Breathlessness

Chest pain

Coughing up blood

Unexplained tiredness or weight loss

If you notice any, **talk to your GP** who can support you to get checked.

Spotting lung cancer early can make treatment more effective.
